

Gamifying the Flow NFT ecosystem

Use any Flow PFP NFT as in-game characters  
Compete against other players in epic minigames

# The problem

Most PFPs lack tangible utility. **Flow's Got Talent** integrates any PFP NFT in the Flow Ecosystem as in-game playable characters.

By gamifying PFP NFTs across the Flow Ecosystem we not only add utility but further align owners affinity with their favourite PFPs, through tamagotchi style training and addictive mini games.

# Booster NFTs

Each PFP can have up to 4 booster NFTs.

Ex: Flowverse Sock owners get 10% more time to complete each game + Sock Accessories (SockUps). Flovatars can score additional points based on their “Sparks” & “Boosters”

Owners of DSS NFTs (TopShot/LA Liga etc) will get bonus points based on their collections for sports specific games(coming soon).

Try it at: <https://flowsgottalent.com/play>  
Or view the demo video <https://flowsgottalent.com/demo>

# FlowSuits:

Power up your FLOW PFP with animated FLOW suits.  
Your PFP becomes an animated in-game character

Each suit is equipped with a set of attributes that affect in-game play

ToonSuit

Hoverboard  
(Flovatars Only)

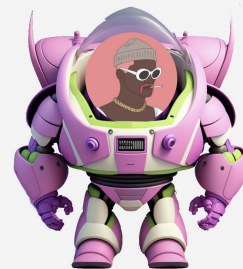

Yellow Mech

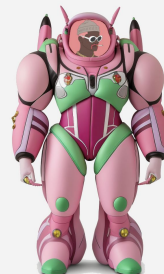

Green Mech

Pink Mech  
(lvl 1)

Pink Mech  
(lvl 10)

Pink Mech  
(lvl 20)

# EleFlowTants :

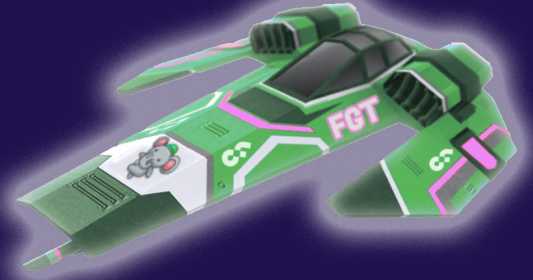

Flow's Got Talent's own adorable mutant elephant PFP Collection  
New Users can play as guests with chances to win.

# Extending the ecosystem.

Beyond the current POC, we plan to add additional API's for projects to add their own in-game assets.

For game developers we encourage integrating into our ecosystem as a central entry point and gain exposure to collectors across the Flow ecosystem.

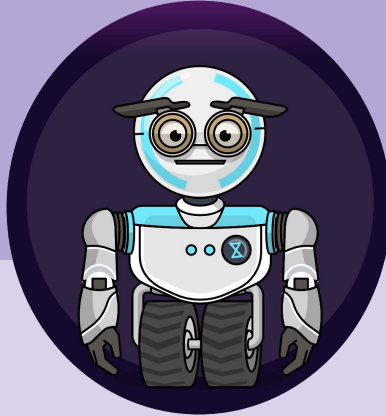

# The team

*Experienced Developer, Designer and NFT aficionado*

**Cansu**

Gamer, lawyer  
Designer,  
Word wizard,  
Boss lady

**Dan**

Full Stack Developer,  
with over 10 years  
experience in projects  
from Enterprise CRM  
systems to 3D games

**Fubar**

NFT collector, out  
of the box thinker  
with a passion for  
tech & video games

Flow's Got Talent, provides new ways to engage with NFTs across the Flow Ecosystem thru out of the box utility/gamification for both existing and new collections.

Not only is this a unique value add but helps extend the current state of NFTs into interactive experiences for collectors favourite projects, galvanising their fanbases.

A close-up photograph of a person's hands working on a wooden surface. The hands are positioned as if they are about to use a pencil or a small tool. The background is blurred, showing some bokeh lights.

# The solution

Allowing common ground for all different projects to play and show off their collections.

No matter what Flow PFP project you are a part of, you can join FGT and show everyone what you got!

---

**Mission statement:**  
To provide a cross  
project utility and  
gamification across the  
entire flow PFP  
ecosystem.

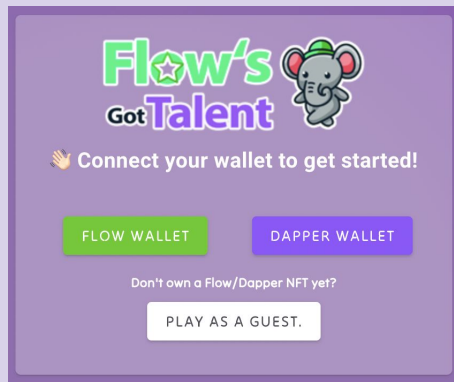

# Features: Walletless/ Guests

Normies / New Users can play as guests with chances to win.

Flow PFP owners can simply connect their wallet, choose their PFP and start playing.

But we also support guest/walletless sign up for new users, who only need to provide an email in order to claim prizes, which include NFTs and their own programmatically created Flow address which can be connected after they create a wallet account.
